

NueSynergy Debit Card Reimbursement Purse

Card reimbursement is an innovative new claims reimbursement method that is now available on your NueSynergy benefit debit card. It allows your reimbursed funds to be credited to a special reimbursement purse linked to your NueSynergy benefit debit card. Now, instead of having to wait for a physical check to arrive in the mail you can receive reimbursements directly to your NueSynergy benefit debit card in real time, as soon as the reimbursement has been processed by NueSynergy.

HOW IT WORKS

Funds will be deposited into your reimbursement purse in real time, as soon as NueSynergy processes your claim and approves the reimbursement. Once the balance is updated, you simply swipe your card to spend your money. Reimbursed dollars that are deposited into this purse can be spent on what you choose – unlike benefit account funds, they are not limited to 'eligible' purchases or merchants.

Setup

1

In the portal, you will be able to request the 'card' reimbursement method when submitting claims online or via the mobile app

2

You can also opt to select 'card' as your preferred reimbursement method on the 'reimbursement preferences' screen

3

Your reimbursement purse balance will automatically appear once your first reimbursement is processed using the 'card' reimbursement method
