

## Employee Care Card Delivers Targeted Relief

In response to the continuing COVID-19 crisis, NueSynergy is pleased to offer the **Employee Care Card**, which enables employers to offer targeted financial support for employees to address their most immediate needs as the pandemic continues to unfold.

---

### MEANINGFUL ASSISTANCE DURING AN UNPRECEDENTED TIME

With NueSynergy's Employee Care Card, employers have a highly flexible and configurable way to provide meaningful assistance to their valuable employees. Employees receive relief funds via a convenient debit card, supported by a simple online experience to check their balance and view transactions.

For employers, the Employee Care Card offers:

- More flexibility than cash or gift cards to provide financial aid to their employees as they navigate this crisis
- The ability to determine the amount they wish to contribute per employee, as well as the type of eligible expenses they want to allow – from groceries and home office supplies to educational supplies and more.
- To control how the dollars can be spent; unlike cash or gift cards, they can preserve unspent dollars and gain real-time insight into employee spending trends.
- A turnkey program that doesn't add work for already-stretched-thin internal resources.

The Employee Care Card represents a tremendous opportunity for employers to help their employees through a very challenging time in their business. For more information, contact NueSynergy at 855-890-7239 or by email at [Sales@NueSynergy.com](mailto:Sales@NueSynergy.com).
