Get More Out of an HSA or FSA

What are HSAs and FSAs?

Set aside pre-tax dollars for eligible health expenses. It is like a 30% off coupon on every dollar you spend.

- **HSAs:** You own the account. Funds never expire. Must be enrolled in a qualifying health plan to contribute.
- **FSAs:** You make an election based on your estimated health care spending. You spend funds within the time period allowed by the plan.

Many people think of HSAs and FSAs as accounts just for doctor's visits, prescriptions and band-aids, but these accounts can be used for so much more. Truemed helps qualified customers use their benefits on health interventions and services recommended to prevent or treat a specific medical condition.

The Interventions Truemed Enables

Truemed provides qualified customers with access to more than 3,000 merchants and 40,000 products, covering a wide range of clinically supported interventions.

How Truemed Works

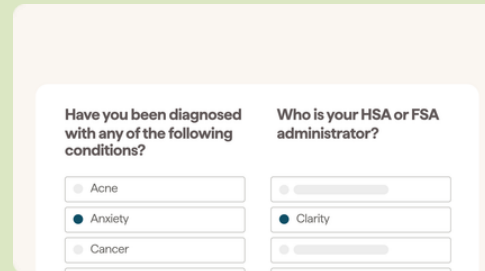

Browse

Explore products that are HSA/FSA eligible for qualified customers. Click "Shop Now" to visit the merchant's website and add your item to cart.

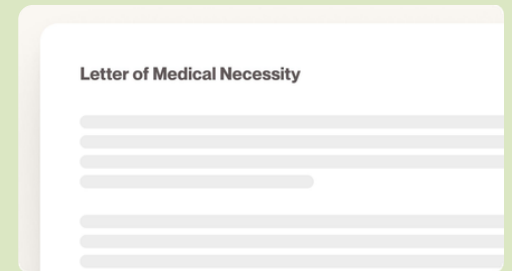

Pay with Truemed

Select the Truemed option at checkout and complete a health survey.

Qualify

Licensed provider reviews your health survey and relevant details to determine if you qualify for a letter of medical necessity.

Purchase Finalized

Qualified customers will be issued a letter of medical necessity and payment will be finalized.
